Pipe Circle Music, Inc.
presents the debut full length release from

U.S. Pipe: ***United Sound Pipe***

Release Date Nov. 13, 2008, USPIPE - 001 - 2

(DENVER, COLO., 11/13/08) -- Acclaimed Colorado funk band U.S. Pipe has released its debut full length release on its own label, Pipe Circle Music, Inc., titled ***United Sound Pipe***. The album was produced by Bill Thomas, recorded and mixed by Christopher "C3" Cardone at Area Five Point One Studio in Evergreen, Colo., and was mastered by multi-Grammy winning David Glasser of Airshow Mastering, Boulder, Colo.

A long time in the making, legions of fans have been waiting to get their hands on this CD, featuring cover art by famous artist, Scrojo (scrojo.com). It also features very special guest, Rick Gardner, on trumpet (rubberhorn.com). An original member of Bootsy's Rubber Band and longtime member of the P-Funk family, U.S. Pipe is honored to collaborate with him. The music is a unique amalgamation of funk, hip hop and rock that positively conveys both the essence of the legacy of the funk culture as well as the future of cutting-edge, funk-flavored music. It entertains, inspires and moves.

U.S. Pipe's music and live performance has garnered them both mainstream and critical acclaim. Their most recent exploits include playing Red Rocks Amphitheatre on August 8, 2008 before the screening of "Purple Rain" as part of the popular annual Film on the Rocks series, garnering a second-year-in-a-row nomination by *Westword* as Denver's Best Funk Band, and playing recent parties and events during the Democratic National Convention, including the Green Frontier Fest and the Sustainable Living Roadshow.

U.S. Pipe has also opened for national and international acts such as George Clinton and Parliament Funkadelic, Fishbone, Bonerama, and Breakestra. In fact, lead man/guitarist Citrus was a member of P-Funk for many years as a stage manager and guitarist before leaving to commit himself fully to U.S. Pipe, behind which he is the mastermind.

The album is now on sale at us-pipe.com, at Colorado retailers like Virgin, Twist & Shout, Wax Trax and Angelo's, and through on line vendors like Mile High Music Stores. Soon it will be available through other retailers such as CD Baby, the Funk Store and iTunes.

***United Sound Pipe* run time: 60 minutes**

Recommended tracks:

Bad Brotha (track 5), Smokescreen (track 3), Super Stupid (track 9) and Get Up (track 1)

"...this is hot, dirty sex-with-your-guidance-counselor funk from the funky town itself..."
